

Exploring Music Production

Course Overview

An evening course for those interested studio sound recording and production. You may be interested in a career as a sound engineer or producer, or in setting up a home studio. You'll be supported by a tutor and taught in our industry standard refurbished studios.

Workshops that will focus on specific demonstrations and practical experience. Develop skills using current production techniques and methods with support from a tutor with experience in the music industry.

What You Will Study

Utilising the industry-standard software Logic Pro X and digital audio workstations to record, edit and mix music and sound. The course will also cover the use of microphones and other relevant studio equipment.

A more specific list of content includes: microphone choice and placement, equipment connection/configuration, gain structure/signal levels, recording, editing and MIDI programming, use of EQ, dynamics processors, effects processors, MIDI programming, mixdown/production skills.

Attendance Expectations

Tuesdays 6.00pm - 8.30pm.
