

Level 1 Practical Horticulture Skills

HORTICULTURE
Wakefield College

Course Overview

Horticulture is the industry and science of plant cultivation including the process of designing, preparing, planting and growing from seed and cuttings. Horticulturists work in a variety of outdoor settings and their use creativity and knowledge in a range of specialisms such as nursery production, garden centres, landscaping gardening, crop production and public and heritage gardens. It has recently been reported that there is a shortage of workers with skills in horticulture sector.

You will learn by building up skills, professional techniques and knowledge by working in teams in a realistic horticulture environment that includes polytunnels, gardens, borders, planting containers and lawns. Class based lessons will give you a full understanding of the theory of horticulture and expand your knowledge for assessments. During the course of the academic year, you will be involved in relevant industry visits.

Please Note: Work placement opportunities will be available.
