

Level 3 Digital Support Technician Apprenticeship

Course Overview

This Apprenticeship is typically suited to individuals who support external customers and clients through a wide variety of digital channels this individual will help with access and services providing support two others in the use of digital systems.

Wider skill development will include gaining confidence using critical thinking, you will develop communication skills, problem solving skills and technical skills.

Through the apprenticeship some of the content you will learn includes how to communicate effectively using different channels considering terminology, you'll learn about operating digital information systems, understanding digital technologies, exploring system security and diagnosing technical problems by identifying and applying tools and techniques.

What You Will Study

This Apprenticeship covers KSB (knowledge (know it) skills (show it) & behaviours (live it).

The above will be shown through evidence collected and produced by you. The KSB are embedded into Duties:

There are 18 duties in total each Duty maps directly to a KSB.

- Provide technical support to customers through a range of communication channels
- Resolve digital issues using the appropriate tools and technologies
- Determine the root cause of technical issues to identify the potential solutions
- Configure a range of digital devices or systems to meet user needs

Attendance Expectations

This is a work-based course, although you may be required to attend sessions to learn theoretical concepts relating to Digital Support Technician in agreement with your employer. Attendance to these sessions, where applicable, will support your achievement of the Apprenticeship.

If you are undertaking Functional Skills as part of your Apprenticeship, you will be required to attend College for a block week of teaching, per Functional Skill subject. This will be discussed at your enrolment and induction.
