

Level 3 Technical Social Care

Course Overview

This qualification is designed to provide learners with the knowledge, understanding and skills required to develop competence as a social care worker in a range of social care support settings. This qualification develops the knowledge and skills needed when working in social care settings. It contains mandatory units which allow the learner to develop the knowledge and skills which are required for the role.

During the course, students will complete a work placement within a social care setting, allowing them to further develop their skills and apply them in practice.

Placement could be in a setting such as the below:

- Residential or nursing homes
- Domiciliary care
- Day centres
- Some clinical healthcare settings
- Community settings
- Children's home
- Supported housing
- Day centre
- Homeless shelter
- Supported living

What You Will Study

The qualification covers a wide range of areas which includes units covering:

- Working in social care
- The care and support planning process
- Values and behaviours
- Mental health and wellbeing
- Learning disabilities
- Dementia awareness
- Health and safety
- Prevention and control of infection
- Personal and professional development

Attendance Expectations

You are likely to be in college over three full days per week. Your lessons will be classroom based and face-to-face, with access to our facilities and equipment.

You will also attend a work placement for one day a week.
